JavaScript, HTML, CSS, React, Next.JS, TailwindCSS, Redux, Node.js, Express, Postgres, Sequelize, Figma, Scrum.

EXPERIENCE

September 2020 – November 2020
Full Stack Teaching Assistant *Henry Bootcamp*

- Leadership and Coordination: Coordinated and guided a group of 30 students in their integration and learning in the Bootcamp, achieving a 95% completion rate.
- Technical Mentorship: Assisted in solving exercises and promoted group collaboration through Pair Programming, improving students' technical and teamwork skills.
- Process Optimization: Provided ideas to improve Bootcamp processes, implementing changes that increased student retention.

.

May 2019 – December 2019
IT Solutions Consultant Level 2 *Lattitude Corp SAS*

- Infrastructure Management: Administered and optimized servers and applications (Active Directory, VMware vSphere, vCenter Server), achieving a reduction in downtime.
- Solution Implementation: Implemented and managed the Microsoft Office 365 suite and backup as a service (BaaS) solutions with Veeam, enhancing data security for both clients and the company.
- Cloud and Virtualization: Managed HPE 3PAR and Simplivity clusters, and Azure cloud services, significantly increasing operational efficiency.
- Security and Communications: Administered IP telephony systems and firewall tools such as Checkpoint, improving network security.

May 2018 – May 2019
NOC Operations Center Operator *Lattitude Corp SAS*

- Proactive Monitoring: Monitored platforms using tools like Orion and PRTG, managing alarms and maintenance windows, resulting in a crucial reduction in critical incidents.
- Reporting and Analysis: Prepared detailed follow-up reports and blocked fraudulent transactions, contributing to a decrease in fraud and theft attempts.
- Social Media Management: Monitored social media and reported on integration status, improving real-time event response.

March 2014 – July 2016
On-site Support Technician *Sonda de Colombia S.A.*

- Maintenance and Repair: Performed preventive and corrective maintenance on over 500 computers, extending their uptime.
- Configuration and Support: Configured network connections, email accounts, and peripherals, following best security and control practices.
- Systems Management: Installed operating systems, managed network user accounts, and conducted hardware and software inventories, increasing asset and software management efficiency.
- Data Security: Implemented operating system images and performed secure formatting and deletion of hard drives, ensuring data security and reliability.
